No. 1.

ANNALS OF
OTOLOGY, RHINOLOGY
AND
LARYNGOLOGY.

FOUNDED BY JAMES PLEASANT PARKER.

EDITED BY

T. MELVILLE HARDIE, M. D.,
CHICAGO.

HENRY A. ALDERTON, M. D.,
BROOKLYN.

H. W. LOEB, M. D.,
ST. LOUIS.

W. SCHEPPEGRELL, M. D.,
NEW ORLEANS.

GEORGE MORGENTHAU, M. D.
CHICAGO.

ALBERT B. HALE, M. D.,
CHICAGO.

J. HOLINGER, M. D.,
CHICAGO.

JAMES T. CAMPBELL, M. D.,
CHICAGO.

Published Quarterly

By JONES H. PARKER,

13 N. Second Street.

St. Louis, Mo.

SUBSCRIPTION PRICE, \$3.00 PER ANNUM, IN ADVANCE.

Subscriptions in other countries of the Postal Union, 14 shillings.

Entered at the Postoffice at St. Louis, Mo., as Second-class Mail Matter.

TO CONTRIBUTORS.

Communications are invited from all parts of the world.

Authors who favor the ANNALS OF OTOTOLOGY, RHINOLOGY AND LARYNGOLOGY with contributions are requested to observe the following rules:

1. When an article for publication under the head of "Original Communications," is accepted, it is understood, unless specially arranged, that it is to be contributed to the ANNALS exclusively, and that copies of the same have not been made for and will not be published in any other journal.

2. Contributions should be TYPE-WRITTEN. When desired illustrative cuts will be made at the expense of the ANNALS.

3. Draw a line along the margin of such paragraphs as should be printed in smaller type—for instance, all that is clinical history in reports of cases, etc.

4. Words to be printed in *italics*, should be underscored once, in SMALL CAPITALS twice, in LARGE CAPITALS three times.

5. Proof will be furnished authors for correction and revision, but it is requested that alteration be limited to matters of essential importance, as changes in the copy are equivalent to resetting, and cause additional expense and annoyance.

6. Authors will be furnished with reprints of their articles, in pamphlet form, handsomely printed on the finest quality of paper.

When the request is made on the original Ms. 100 reprints will be sent to authors free. Additional copies will be furnished at cost as follows:

100 Copies, 4 pages	- - \$2.50	200 Copies, 12 pages	- - \$ 5.50
500 " " "	- - 4.00	500 " " "	- - 7.00
1000 " " "	- - 5.00	1000 " " "	- - 10.00
200 Copies, 8 pages	- - 4.00	200 Copies 16 pages	- - 6.00
500 " " "	- - 5.00	500 " " "	- - 8.00
1000 " " "	- - 7.00	1000 " " "	- - 11.00

Covers, 75 cents for first 100; 50 cents for each additional 100.

The ANNALS is published four times a year: On or about the last of February, May, August and November. Articles for succeeding issues should be in the hands of the editors sixty days before the date of publication.

DR. T. MELVILLE HARDIE,
34 Washington Street,
Chicago.

Subscriptions should be addressed to the publisher,
JONES H. PARKER, 13 N. Second St., St. Louis, Mo.
Advertising department in charge of DR. C. W. PARKER,
13 N. 2d St., St. Louis, Mo.

INDEX

A Remarkable Case of Plastic Operation upon the Face; Formation of Eye-Lids and Total Restoration of the Nose. By DR. CARL BECK, Chicago.....1

Trachoma of the Conjunctiva and its Relation to Diseases of the Nose. By DR. ZIEM, Dantzig.....10

Nasal Insufficiency Due to Exaggerated Prominence of the Anterior Arch of the Cervical Vertebrae. By DR. JAMES E. NEWCOMB, M. D., New York City.....22

Delusional Insanity Resulting from Auditory Concussion. By L. R. CULBERTSON, M. D., Zanesville, Ohio.....26

"Bilateral Aural Lesion Following Traumatism." By JAMES F. McCAW, M. D., Watertown, N. Y.....28

The Treatment of Uncomplicated Suppuration of the Middle Ear. By H. A. ALDERTON, Brooklyn.....30

Abstracts from Current Otological, Rhinological and Laryngological Literature.....41

I.—EAR—Otorrhea for three Years—Fracture of the Base of the Skull—Operation—Recovery. A Case of Mastoiditis. Some of the Special Germs in Inflammation of the Middle Ear, with an Interesting Case. Some Relations Between Hearing and the Word Spoken. A Study of Thirty Cases of Antral Empyema. Chronic Suppurative Otitis Media in a Tubercular Patient—Brain Abscess—Trephining Through the Mastoid. Purulent Thrombosis of the Lateral Sinus. Epidural Abscess Extensive Subperiosteal Abscess with Oedema of the Scalp, Face and Neck—Operation—Recovery. Purulent Mastoiditis Complicated by Epidural, Subpetrous and Post-Oesophageal Abscesses; Death Presumably from Internal Hemorrhage. Otitis Media with Triple Personality. The Value of Ophthalmoscopic Examination for Diagnosis of Endo-Cranial Complications of Otitis. Noise as a Factor in the Causation of Disease. A Case of Inflammation of the Membrana Tympani Apparently Due to Dental Pulpitis. Tumor of the Entrance of the External Ear. Surgical Treatment of Some Facial Paralysis of Otitic Origin. Tuberculosis of the Middle Ear. Tone Sensation with Reference to the Function of the Cochlea. Entotic Sound Perception. Treatment of the Ear in Whooping Cough. A Contribution to the Clinical Stages and to the Technique of the Operation for Sinus Thrombosis.....41

II.—NOSE AND NASO-PHARYNX—Remarks on Nasal Synechias. Endothelial Sarcoma or Anglo-Sarcoma of the Middle Turbinate Body. Maxillary Pneumosinus of Cystic Origin. Interstitial Electrolisis with Copper Electrodes in Ozena. A Bridal for the Control of Mouth-Breathing. Latent Empyema of the Accessory Cavities of the Nose. Dental Septicemia of the Antrum. Infection of the

Frontal Sinus from the Maxillary Sinus. A Case of Syphilitic Chancre of the Nasal Septum Resembling Pseudo-sarcoma. Automatic Curvature of a Snare with Flexible Loop used to Remove the Posterior Ends of the Turbinated Bodies. Chronic Headache Caused by a Centipede in the Nose. The Relation of the General Practitioner to the Rhinologist, and the Treatment of Some Affections of the Nose and Nasopharynx. A Case of Blue Secretions of the Nose (Chromo-Rhinorrhea). A Case of a Rare Anomaly. Grave Hemorrhage After Adenoid Operation in a Hemophile. The prevention of Hay Fever. Headache from Nasal Causes, with Some Illustrative. Clinical Study of Primary Lupus of the Septum and the Nasal Fossæ.....57

III.—MOUTH; PHARYNX; DIPHTHERIA—Remarks Concerning the Presence of the Short Bacillus of Loeffler in the Exudations of Ulcerations. Control of Diphtheria. Diphtheria Complicated by Measles. Diagnosis and Treatment of Diphtheria. Diphtheria and its Modern Treatment. Spread of Throat Illness by Milk.....63

IV.—LARYNX—Histological Examinations of Polypus of the Larynx. Myxoma of the Larynx. Tuberculosis; Its Hygiene and Dietetics. A Case of Epithelioma of the Larynx. A practical Mode of Administering Iodine Hypodermatically in the Treatment of Pulmonary Tuberculosis. Treatment of Tubercular Laryngitis. Acute Oedema of the Larynx. Sero-Diagnosis of Tuberculosis. Trachea-Thyrectomy in Cancer of the Larynx. The Eversion of the Ventricles. A Case of Laryngeal Cancer. Treatment of Tuberculosis. Consumption: Cases that Should Go to Colorado and Cases that Should Stay at Home. Some Statistics upon Sero-Therapy in Tuberculosis. The Specific Action of Air in Consumption.....65

V.—MISCELLANEOUS—Notes on the Therapeutic Uses of the Suprarenal Gland. The Diagnostic Characteristics of Headaches According to their Origin. Odor as a System of Disease. Artificial Respiration in relation to State Medicine. Schleich's General Anæsthesia Not a Success. Bronchial Cyst, with Report of Case Treated by the Injection Method. Anæsthetic Mixtures in General Anæsthesia, with Special Reference to the Schleich Mixtures.....70

Report of the Fourth Annual Meeting of the American Laryngological, Rhinological and Otological Society. Held at Pittsburg, Pa., May, 1898. By ROBERT C. MYLES, M. D., New York City..73

American Laryngological, Rhinological and Otological Society—Eastern Section. Washington, January 28th, 1899.....90

BOOK NOTICES.....97
